## Brilliance CT

**It's simple. You can choose the ordinary or even the occasionally extraordinary. Or you can choose Brilliance from Philips. Brilliance CT systems give you the clinical advantages you need to attract referrals and the productivity advantages you need to keep them.**

**Their appeal is powered not only by more intelligent technologies inside, but also by stunning advances in how people can interact from the outside. Both are critical for handling the large amounts of data provided by multislice imaging and helping you achieve a sustainable competitive advantage in your environment.**

**Benefits:**

- **Comprehensive range of clinical applications and features not offered on other comparable systems in the market**
- **Viewing environment that improves productivity by working the way you do**
- **DoseWise™ design that delivers optimal dose efficiency, without compromising image quality**
- **Exclusive RapidView™ reconstruction techniques, which provide best-in-class image reconstruction speed without compromise in image quality**
- **Scalable platform for growth and future applications, making each Brilliance CT system a secure, long-term investment**
- **Advanced technological innovations built into every Brilliance CT system for superior speed, accuracy and reliability**
- **Philips comprehensive service agreement meets the requirements of your high performance environment through advanced total solution support, increased uptime, clinical education, and remote technical assistance.**
