LightSpeed Xtra Multi-purpose CT system

LightSpeed® Xtra puts more at your fingertips. An extra-large bore. An ample field of view. A powerful X-ray tube. High-resolution imaging. Quick gantry speeds. For fast, efficient trauma exams, more convenient large-patient scans and easy interventional procedures LightSpeed® Xtra delivers reliability no radiology department should be without.

Flexible fit: LightSpeed Xtra delivers across a wide range of anatomy and applications including Abdomen, Thorax, Head and neck, Extremities, Vessels and vasculature.

Excellent images: A powerful 100kw Performix™ Pro tube features a 100-kW generator with 800 mA maximum current for sub-millimeter, sub-second imaging.

Optimized dose: By reducing noise, GE's exclusive Volara™ 24-bit Digital Data Acquisition System (DAS) delivers exceptional image quality in signal-starved anatomy and in large patients. It also lets you optimize technique for dose-sensitive anatomy.

All attempts have been made to ensure accurate data. Medical Imaging Resources, Inc. assumes no responsibility for any unintentional errors or omissions.
