MAGNETOM Sonata Maestro Class

The 1.5T MAGNETOM Sonata is a system of unparalleled power, perfect as a clinical research system and for cardiovascular and neuroradiological applications. MAGNETOM Sonata gives you everything you need for a state-of-the art exam: crystal-clear image quality supported by previously stored optimized sequences, clinical flexibility, and ease of operation. MAGNETOM Sonata is the fastest MR system in the industry for research and cutting edge clinical applications (such as DTI, PWI, MRS, fMRI, CVMR) - it uses *syngo* and Inline-Technology. Siemens's unique Integrated Panoramic Array coil concept allows you to scan with up to 16 array elements simultaneously for improved patient throughput

All attempts have been made to ensure accurate data. Medical Imaging Resources, Inc. assumes no responsibility for any unintentional errors or omissions.
