Panorama HFO - High Field Open MRI

Simplicity is comfortably accommodating patients while obtaining superb

High Field Performance comparable to 1.5T in a truly open configuration

- Solenoid Technology Coils provide more SNR, more coverage & more comfort.
- One Five signal, optimal 1.0T soft tissue contrast.
- Shares the same powerful [FreeWave](#) platform as Achieva.
- Increased productivity with [SmartExam](#), one-click planning, scanning and processing.

Wide Open - Preferred by Patients

- 3 times more patient space than cylindrical high field.
- Studies show most patients prefer the Panorama over any cylindrical system.
- Ambient Experience further boosts preference.
- Preference represents value.

Going Beyond the Bore

- “Beyond the Bore” capabilities enable unique clinical applications not possible with cylindrical systems.
- Subject is always in the isocenter.
- Large patients are easily accommodated with the integrated body coil.
- Always an open line of sight and unrestricted accessibility.
- Enables real-time kinematic studies.

Ambient Experience

- The perfect compliment to the Panorama HFO.
- A revolutionary approach designed with your patient’s comfort in mind.
- Relaxed patients contribute to trouble-free exams and artifact-free images.
